

## We took a seat at Blockbuster Tokyo business plan presentation meeting

As a member of Blockbuster Tokyo's selection team, we have received support from pharmaceutical companies, support agencies, investors, etc. for about half a year. Philip Davy, Head of Business Development, was on stage at the final pitch event on March 27th, the final event for this program. We have reworked our business model many times during the support period and made it a great pitch for the final pitch competition. In the photos of BlockbusterTokyo's website and Facebook, we are using photos posted by us.
